

Certificate of Course Completion

Dean Meyer

has successfully achieved student level credential for completing the IT Customer Support Basics course.

The student was able to proficiently:

- *Learn the basic functions and purpose of a help desk.*
- *Practice creating records that summarize customer issues and solutions.*
- *Understand how to identify, troubleshoot, and fix issues step by step.*
- *Learn how to connect to and support user devices remotely. Use tools to find solutions and keep records updated.*
- *Assist with common issues in apps like email, collaboration tools, or productivity software.*
